Head of School – Mrs J Jacklin

7 July 2020

Dear Parent/Guardian,

As we approach the end of the school year, I would like to thank you for all your support in assisting your child in their mathematics home learning. Learning has looked very different for this part of the year, and students have worked hard to continue their learning and progression. Thank you for all your support during this time.

As a parent, you may feel anxious about the potential impact home learning has had on students. I am delighted to inform you of an invaluable mathematics resource you and your child can access for free over the summer period, Numerise, to support and build confidence in maths.

Numerise is a new home learning resource to help families with maths at home. The resource has a "secondary ready" course that is designed specifically for children in their last year of primary so they can develop their core number skills and be ready to make a positive start at secondary school in September.

Secondary Ready is mapped to the maths curriculum that children study in their final year of primary school and is powered by Sparx' award-winning technology. Lessons and questions match the topics in KS2 and KS3, so your child can practise independently, work through topics they are struggling with or get help with long-term revision. Numerise uses artificial intelligence to deliver personalised learning to each learner, catering to their level, drawing on a bank of over 38,000 questions and 9,000 video tutorials. As a parent, you can also track the progress of your child.

The website is in its pilot phase so please be prepared to see some changes over the next few months. You can currently join free of charge until September. To sign up and for more information, please use this link. https://www.numerise.com/?utm_source=Hegartybanner&utm_medium=Website&utm_campaign=Numerise-beta

How to sign up:

- Parents have to register first: Click on the "Sign up" button.
- Click on "Supporting Adult".
- Fill in the required boxes.
- Wait for the confirmation email to activate your account.
- Login with the details you have just created.
- Click on "Manage Accounts"
- Click on "+ Add Learner"
- Complete the boxes and add the new learner
- If you would like to sign up more than one child, click on "+ Add Learner" again.
- Ask one of the learners to login
- Choose the correct course for them, from KS3 or GCSE. Level for KS3 are 1 (easiest) to 4 (hardest). GCSE is levelled by exam grade. Levels can be altered at any time.

As a parent you can see your children's progress when you log in to your own account.

If you have any questions, queries or require any further support regarding levels, please do not hesitate to contact me at the following email address Jennifer.mcdonald@kingarthurs.org.uk
I look forward to meeting you next year and wish you an enjoyable summer.

Yours faithfully,

Jennifer McDonald
Curriculum Lead – Mathematics and ICT
